Philippine Infradev Holdings, Inc.

IRC

PSE Disclosure Form 4-30 - Material Information/Transactions References: SRC Rule 17 (SEC Form 17-C) and Sections 4.1 and 4.4 of the Revised Disclosure Rules

Subject of the Disclosure

Risk and impact of the COVID-19 and all measures to mitigate the risks.

Background/Description of the Disclosure

Philippine InfraDev Holdings Corporation's operations, both in real estate and infrastructure, are in the low-risk category as of the moment. The bulk of its activities in the real estate operations is the land development and house construction of its current subdivision projects. There is little personal contact, except with its contractors. Selling is limited to its broker networks. As to the infrastructure operations, we continue to research, design and cooperate overseas in workplaces that are externally coordinated in various professional fields. Due to the community quarantine recently being implemented by the Government, the Corporation expects some delays in its operations, the extent, however, cannot yet be determined at this time.

The company takes preventive measures to reduce the contagion of the disease, such as:

- Office quarantine. The area where the employees are stationed is off limits to visitors. Should there be visitors, they are confined in the reception area. Employees who are required to meet with the visitors wear masks, follow the "distancing", and follow the hygiene procedure of soap washing and sanitizing.
- Encouraging bank payments from our buyers, instead of personal visits to the office to pay their amortizations and other payments
- Minimizing or totally cancelling official meetings either in-office or out-office, encouraging teleconferencing and other internet applications.
- Provision of masks and alcohol to the employees
- Allowing some staff to work from home twice a week to lessen exposure, most especially the staff with pregnant spouses and with children
- Allowing the staff who are not able to work from home to leave work earlier so as to avoid crowded transport means, such as trains, FX and jeepneys.
- Provision of health maintenance insurance with Maxicare Healthcare, which has been provided to all employees since Year 2010
- Temperature check in office. If an employee is suspected of exhibiting signs of flu, he/she shall be asked to go to the nearest hospital or a check up

Other Relevant Information

None.
